About Us

The staff & volunteers of Wye Marsh are a team of enthusiastic Naturalists who are excited to share their knowledge and appreciation for the natural world, environmental stewardship, and the many benefits associated with participating in physical activities out-of-doors.

Wye Marsh and its interpretive centre sits on a 1200 hectare (3000 acre) wildlife area situated in an environmentally endowed location in southern Georgian Bay. The Friends of Wye Marsh, a non-profit organization, has stewardship responsibilities for this property and whose mission it is to *foster environmental stewardship*.

What makes us **UNIQUE**:

- ❖ Our programming provides participants with opportunities to interact with, develop caring and concern for, and take action in the places where students live, study, and play.
- ❖ Our Outdoor Educators (Naturalists) provide connections between us and our surroundings, allowing participants to directly observe impacts and issues by exposing them to the many points of view that must be considered in making choices to preserve the health of the natural environment.
- ❖ We believe that learning while having fun encourages immediate and long term involvement in environmental stewardship.
- ❖ Our unique setting - National & Provincial Wildlife Area, Class I wetland, Trumpeter swans (Provincially rare bird), species at risk, productive & biodiverse ecosystem - provides endless opportunities to make unique connections.
- ❖ Facilities and trails are accessible to all physical levels.

Nature

How to use this GUIDE:

A successful and enjoyable trip comes from planning and preparation. This guide is designed to outline the planning process and to provide you with the necessary tools that will ensure your trip to Wye Marsh is the highlight of your year!

Step 1. Choose program(s)

- Each program is **one** or **two hours** in length. Programs can be combined to make up a **half** or **full day**. Program times can be flexible in order to accommodate travel arrangements.
- Please ensure that you choose **one alternative program** as well as **two alternative dates** in the event that your first choice is unavailable.

Step 2. Submit request

- Download a **Booking Request Form** from www.wyemarsh.com or contact us to request a copy via email or fax.
- Submit completed form by **email** (reservations@wyemarsh.com) or **fax** (705.526.3294)
- Please note that a Booking Request does not imply a booking/reservation.

Step 3. What to expect

- A **Booking Confirmation** will be sent via email within two business days of receiving your booking request. **Please share** its details with all participating leaders/supervisors.
- You will be required to sign this booking confirmation form and submit it back to us along with a **50%** deposit in order to confirm your booking
- Payment of balance owing is due **two weeks** prior to your visit by Visa, MC, PayPal, money order, cheque, debit or cash and is based upon **confirmed** number of participants.
- Our programs run rain or shine. **Cancellations** can be made up two weeks in advance of your visit but are subject to a \$50 administration fee. Groups who cancel after the deadline will lose their deposit.

Natural Sciences

Animal Tracking

Abundant in numbers, but very rarely seen, Wye Marsh's winter inhabitants have left stories of their travels behind in the snow. Designed to kindle awareness and understanding of Ontario's winter-active mammals, this program focuses on identifying animal tracks and scats, as well as animal adaptations, behaviours and winter survival techniques.

Birds of Prey Show

This exciting program will give participants the opportunity to be brought face-to-face with the grace, majesty, power and intelligence of birds of prey. Participants will learn all about the different types of birds of prey, their habitats, adaptations, and life histories, all the while being delighted by these magnificent animals in flight. **Specialty program—additional charge applies (see booking information on page 13).

Look, See, Paint

More than just an introduction to watercolour painting, *Look, See, Paint* brings a new way to view, appreciate and reconnect with our natural world. Equipped with a portable painting kit, watercolour paper and a view finder, participants will explore the natural beauty of the marsh from an artistic perspective.

Marsh Mingle

Games, games, and more games! Educational, kinetic and fun, this program is sure to get its participants actively engaged in with each other as well as with the wildlife around them as many of the games have an environmental focus.

Pond Study

With dip nets in hand, students will learn about the many amazing adaptations the aquatic insects of the marsh possess, as well as what these insects can tell us about the water quality of the marsh. Students will also learn about the interconnectedness of all of the marsh inhabitants as they simulate an aquatic food web, and explore the surrounding habitat by foot.

The Science of Snow

Participants will take an in-depth look at the mysterious white stuff that defines our Canadian winters. Through hands-on games, activities, and experiments, students will learn everything from snowflake formation and identification, to its influence on the plants and animals that call the Wye Marsh home during the winter season.

Investigation

Ultimate Survival

This exhilarating simulation game demonstrates the interactions between predator and prey species, as well as the encompassing ecosystem. Taking on the role of carnivores, omnivores, and herbivores, participants will be challenged to obtain their specific survival needs as they navigate through a forested environment, all the while evading predator species bent on stealing their lives.

Wet 'N' Scaly Show

This exciting program provides participants with the opportunity to get up close and personal with some of Ontario's native reptile species. Participants will learn plenty of fun facts and identification tips, as well as discover the importance of environmental stewardship and the role that they can play in helping Ontario's Species at Risk.

Physical

Outdoor Recreation

Cross-Country Skiing

Not only is it fun, beautiful, and good for your health, cross-country skiing is an exhilarating outdoor activity for all ages and fitness levels. After an introductory lesson to cross-country skiing technique, with an emphasis on group and personal safety, participants are sure to increase their appreciation for winter as they glide their way along our snow-covered ski trails. **Specialty program—additional charge applies (see booking information on page 13).

Snowshoeing

What better way to combine physical activity with the pursuit of nature? With traditional-style snowshoes strapped to their feet, participants will head out into the snow-covered landscape to discover the many wonders that winter has to offer. Participants will also play a variety of games and activities designed to help develop balance and coordination skills. **Specialty program—additional charge applies (see booking information on page 13).

GPS Navigation

After an introductory lesson on using Global Positioning System (GPS) units, participants will be asked to correctly answer animal trivia questions that will lead them to geocaches containing animal tokens. Teamwork, problem solving, and keen observation skills will all come into play as participants attempt to collect as many animal tokens as possible within the allotted time.

Compass Orienteering

Equipped with nothing more than a magnetic compass and the know-how to use it, participants will trek through the wilderness in search of hidden orienteering markers. Teamwork, leadership, problem solving skills, and accuracy will all come into play as participants navigate our challenging orienteering course in an attempt to piece together an inspirational quote.

Marsh Exploration by Canoe

There is no better way to explore the Wye Marsh ecosystem than seated among friends in one of our large voyageur-style canoes. After a brief lesson on paddling technique and canoe safety, participants will paddle past blooming water lilies, basking turtles, and a beaver lodge, as jewel-winged damselflies and Red-winged Blackbirds fly overhead. Participants will also explore the marsh on foot as they visit the Swan Treatment Center, walk the boardwalk, and climb the observation tower. **Specialty program—additional charge applies (see booking information on page 13).

Marsh Exploration by Kayak

Whether paddling solo or with a partner, kayaking provides a very intimate and tranquil approach to exploring the marsh ecosystem. After a brief lesson on paddling technique and kayak safety, participants will paddle past blooming water lilies, basking turtles, and a beaver lodge, as jewel-winged damselflies and Red-winged Blackbirds fly overhead. Participants will also explore the marsh on foot as they visit the Swan Treatment Center, walk the boardwalk, and climb the observation tower. **Specialty program—additional charge applies (see booking information on page 13).

Activity

Team Building

Allow us to put the participants' teamwork skills to the test as we facilitate a series of nature-based team challenges, each one more demanding than the last. Leadership, trust, cooperation, communication and problem solving will all come into play as the participants strive for cooperative success.

Wilderness Survival

After a quick and active introduction to wilderness preparedness, survival priorities, fire starting and shelter building, we will conveniently “lose” the participants in the bush, where, in order to survive, they must work as a team to prepare a survival site, as well as prepare and present a theatrical rescue story!

Tangible

Cultural History

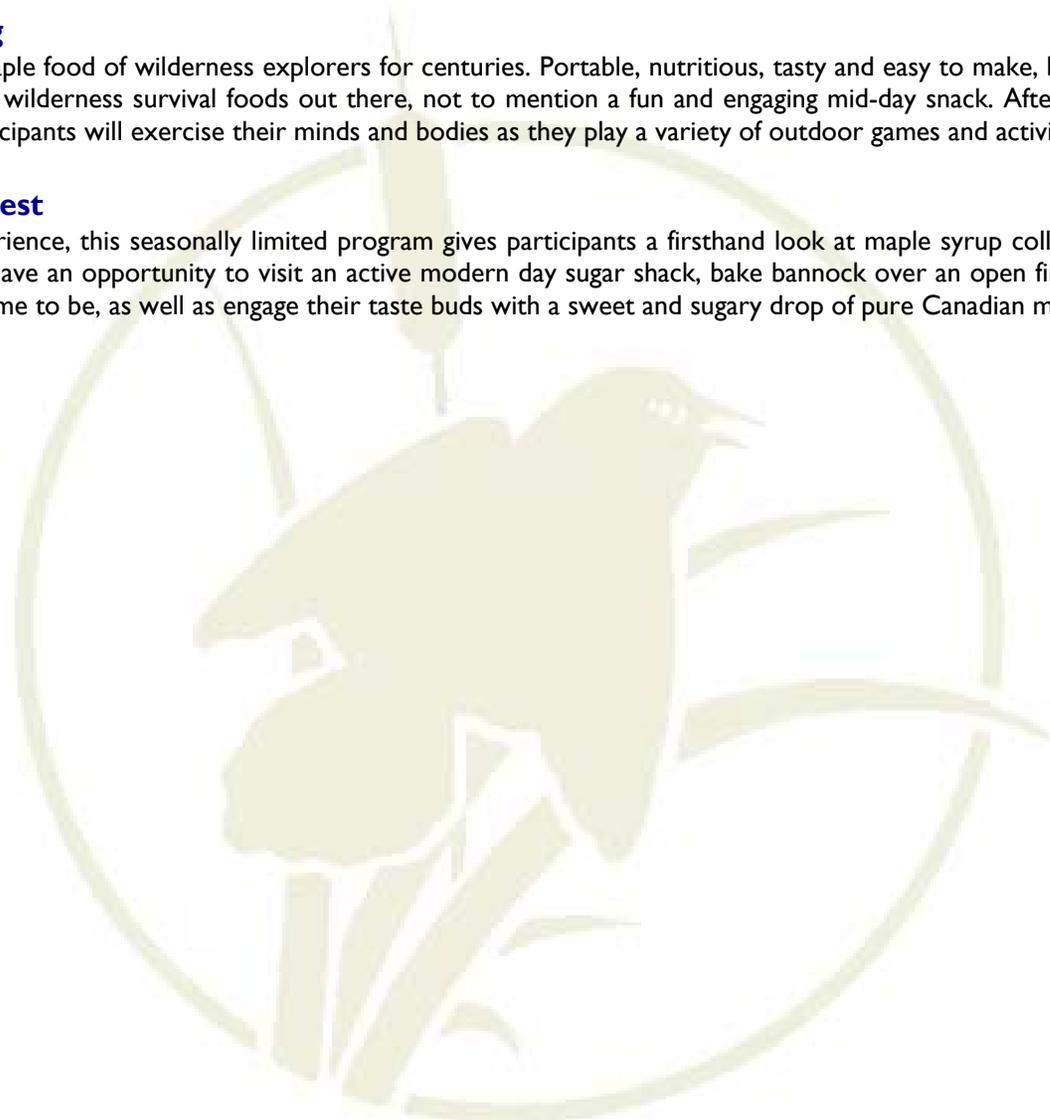

Bannock Roasting

Bannock has been a staple food of wilderness explorers for centuries. Portable, nutritious, tasty and easy to make, bannock's legendary reputation continues as one of the best wilderness survival foods out there, not to mention a fun and engaging mid-day snack. After roasting their bannock to perfection over an open fire, participants will exercise their minds and bodies as they play a variety of outdoor games and activities.

Sweetwater Harvest

A truly Canadian experience, this seasonally limited program gives participants a firsthand look at maple syrup collection and production throughout the ages. Participants will have an opportunity to visit an active modern day sugar shack, bake bannock over an open fire, and listen to a First Nations legend of how maple syrup came to be, as well as engage their taste buds with a sweet and sugary drop of pure Canadian maple syrup.

Connections

Come and enjoy the best of what Wye Marsh has to offer! Designed to showcase our favourite activities, critters and special spots, these programs are perfectly suited for larger groups and are adapted to please participants of all ages! Please note that these programs are available in the Full Day format only (10am-2:30pm)

Winter Carnival!

Discover Wye Winter Wonderland! This program will be sure to warm every participant up to the winter season. A Winter Carnival at the Wye Marsh could include the following of these most favourite activities:

- Birds of Prey Show
- Bannock Roasting
- Animal Games
- Chickadee Feeding
- Animal Tracking
- Snowshoeing
- Guided Hike
- Wet n Scaly Show

Wetland Wonderers!

Participants will 'wonder' the Wye Marsh with the help of a knowledgeable Naturalist who will get them excited about the Marsh and it's inhabitants. The Wetland Wonderers package could include the following of these most favourite activities:

- Birds of Prey Show
- Bannock Roasting
- Animal Games
- Dip Netting
- Guided Hike
- Wet n Scaly Show
- Guided Canoe/Kayak
- Look, See, Paint
